Securus
Safeguard Monitor Protect

Complies with

Keeping children safe in education 2024

Statutory guidance for schools and colleges

Monitoring & Safeguarding Solutions in Education

Securus provides specialist, online safety solutions for schools, multi academy trusts and education establishments to accurately monitor, respond and safeguard the welfare and wellbeing of digital users.

KEY COMPONENTS OF SECURUS DIGITAL MONITORING

The Securus Console

- Cloud-based, secure, access anywhere, Securus Management Console
- Comprehensive library of words and phrases
- 24+categories of concern.
- Incidents detected generate screenshot evidence for easy review by safeguarding staff.
- The Securus Console also features an intuitive dashboard and reporting suite

The Monitoring Software

- Online & offline monitoring at both the device and network level
- Monitors all school managed & personal devices
- Screenshot 'capture' incidents instantly update the Securus Console
- Our OCR scanning technology captures ANY application generated incidents
- 100% coverage for leading applications such as Office 365, Microsoft Teams and Google Workspace

Fully Managed Service or Self Managed

- With Securus, schools have the option to monitor captures themselves. If time constraints and staff resource are stretched, you may wish to leave the monitoring to us
- With Securus FMS, our fully managed service, our safeguarding team will monitor activity on behalf of the school and alert school DSLs, safeguarding and senior leadership staff to incidents of concern

Customer Support & Portal

- Full access to our dedicated support team and knowledge base portal
- Includes all software updates plus library updates to reflect current threats, trends and jargon
- Library updates include our work with industry bodies such as the IWF & CTIRU.
- Unlimited online training sessions alongside telephone and email support
